Bob Kelley called this morning to pass on the following comments:

- 1) Both Smith and Rathjens very much liked the draft paper on foreign reaction to US nonproliferation policy.
- 2) Since there were some that did not like the draft and since the principal author is now at State, you should advertise the draft as being an NFAC product and not give specific credit to the author [redacted] "Know what I mean"--Kelley.

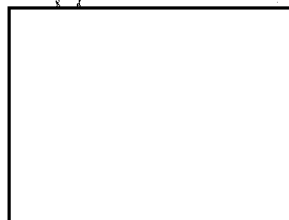

Kelley accepts your dinner invitation on the 13th.

Send
